

Accords de Guitare pour Composer

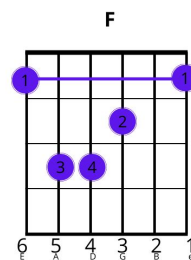

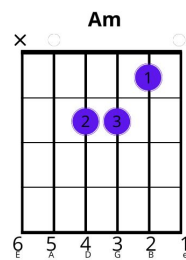

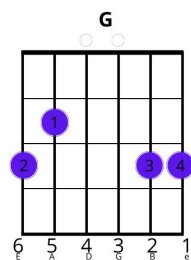

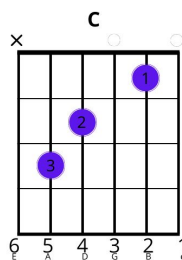

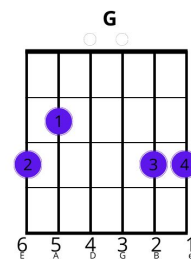

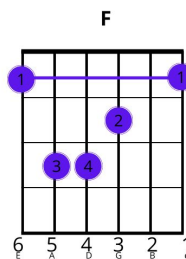

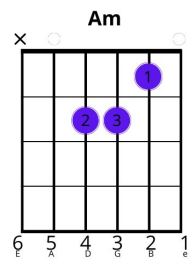

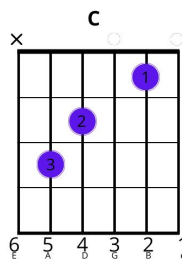

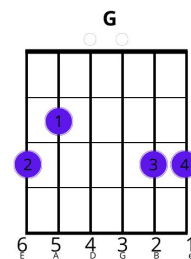

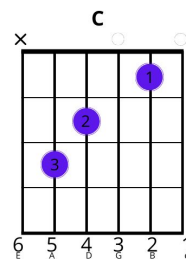

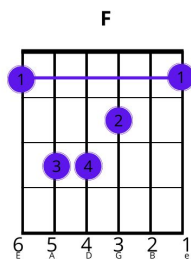

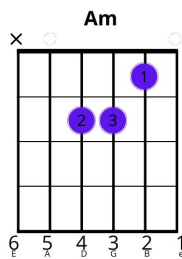

Ma Fiche PDF

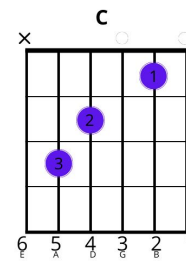

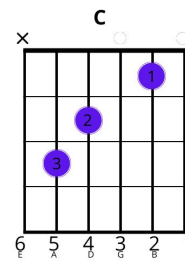

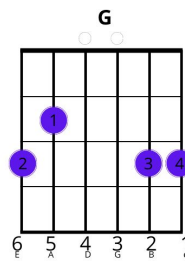

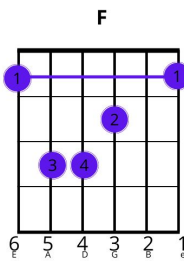

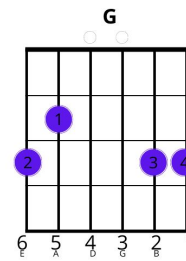

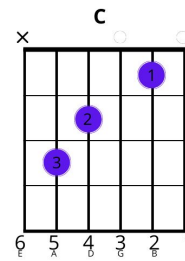

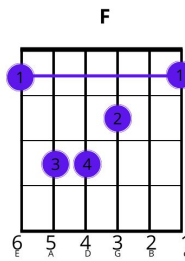

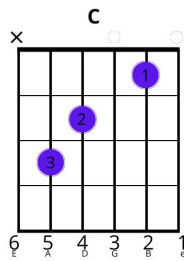

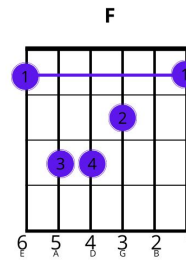

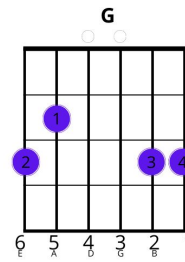

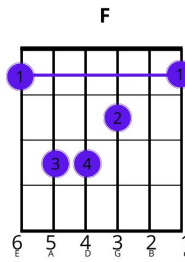

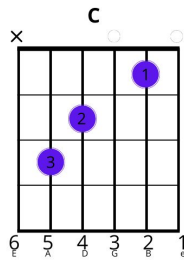

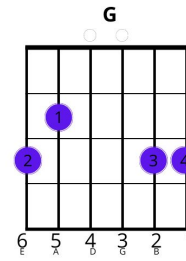

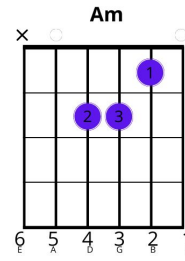

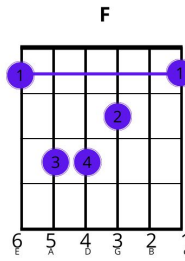

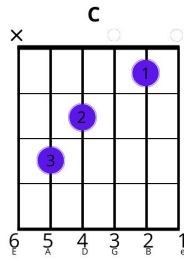

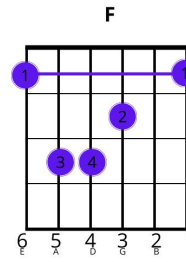

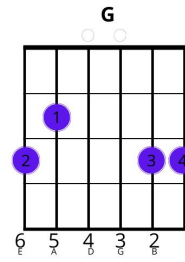

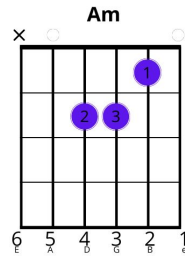

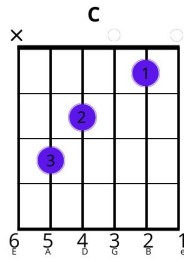

Ci-dessous, tu trouves des progressions d'accords de guitare pour composer sous trois genres : pop, rock et jazz. Ils sont tous issus de la gamme de Do Majeur. Pour changer de gamme, utilise le cycle des quintes. Évidemment, tu peux t'inspirer de ces exemples d'enchaînements d'accords pour en créer plein d'autres pour d'autres styles musicaux ! L'imagination est ta seule limite !
